

Partnering with CCPC has been an overall excellent experience for Pharmascience.

As Canada's second largest pharmaceutical manufacturer, we look to develop and grow with partners like CCPC.

The level of engagement and collaboration demonstrated during the product development phase has been remarkable.

CCPC technical teams deal with unforeseen requests with genuine curiosity and prompt action.

From negotiations to execution, CCPC has emulated how great business partnerships should be.

We are certainly excited about exploring new opportunities with CCPC in the future.

From Pharmascience, we congratulate the entire CCPC family on your 70th anniversary.
